

Ice Age Wildlife

Also known as Reindeer, Caribou still lived in Maine until 100 years ago.

Caribou

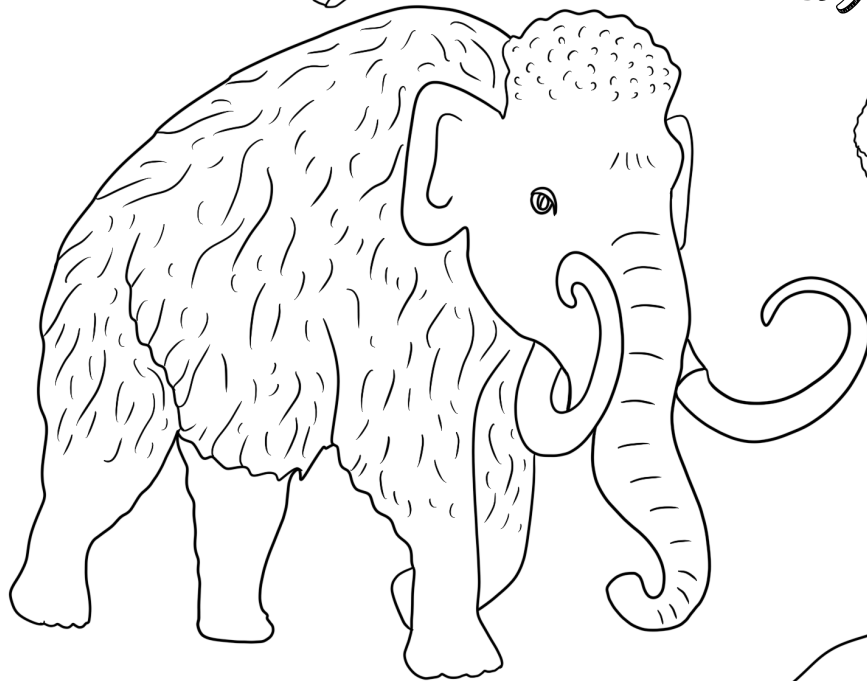

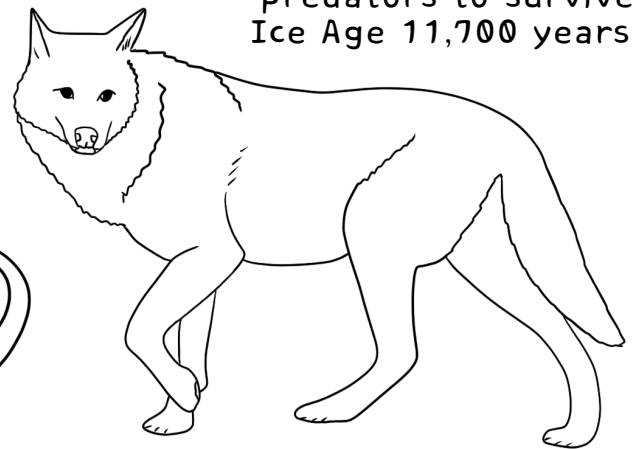

Mastadon

Shorter and stockier than mammoths with straight tusks.

Gray Wolf

One of the largest predators to survive the Ice Age 11,700 years ago.

Woolly Mammoth

10 foot tall, woolly haired elephants but with curved tusks.

Can you imagine a beaver that was 6.5 feet long with 6 inch long teeth?

Giant Beaver
